## SET UP PROCESS

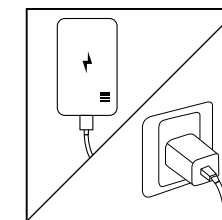

1. Attach the light (A) with the 2 nuts (D) provided to the horizontal frame (B) and fix the cable to the frame with the clamps (G)

2. Place the vertical part of the frame (C) behind the dartboard while placing the magnets on the upright position of the Dartboard, then fix the vertical frame (C) with 2 woodscrews (F) in the holes provided to the back of the dartboard

3. Place the bottom end of the Horizontal frame (B) in the groove of the Vertical Frame (B) and align the holes. Fix the 2 parts with the nuts (E) provided

4. Connect the USB socket with either a USB Adapter(Output5V 2A) or power bank(Output5V 2A) and you can enjoy playing darts with our new lighting system.
